## Interview with the Mayor!

By Tyler Dale

I had the excellent experience of interviewing the mayor of Enterprise America, Anthony Menzari! I asked him some important questions and even learned that he enjoys his time at the Sports Shop. He said that he would come back because it helps students prepare for the future and even thought that his 9-year old brother should come. He believes people should start thinking of the future now in middle school and enjoys his job deeply stating "Being the Mayor is great!" And saying that there wouldn't be a city without him and everything would be a madhouse!

"I bet that your interview was very enjoyable. The mayor has a great sense of humor!"

- Mrs. Gehm

"I think it's time for a new mayor. All of his ideas are outdated"

- Mrs. Flournory

## Best Customer Service

"I think the mayor is very casual and laid back in a good way. He's relaxed and calm and easy to talk to!"

-Melinee Her

"I think he's a good mayor and he's helping our city become successful" - Radnaja Wright

Currently today the Non-Profit Organization is benefitting to the Enterprise America Community by giving gifts to the community after they have been given.
