

The Dolphins and the Shark.

By Madelyn

Once upon a time there were two dolphins they
were twins. One was blue and one was pink. The
blue dolphin was the brother, the pink dolphin was the sister.
They lived in the coral reef. The coral reef was a beautiful
place.

The brother said, "Maybe we can swim over to the tidal pool." "Ya lets go," said the sister. So they went over by the tidal pool. They met a shark named Lenny.

Lenny was very nice to the twins. Lenny also lived in the coral reef. He gave the twins seaweed and shells. Lenny was on his way to his home. Lenny went to his home because he was getting pearl necklaces and his blue pearl to give to the twins.

But Lenny could not find the blue pearl or the necklaces.
He wondered where they could be and looked in the
shipwreck nearby. Lenny looked in the shipwreck
nearby and at the bottom of the shipwreck he saw
the blue pearl and the necklaces.

Lenny brought the blue pearl to the brother and the pearl necklaces to the sister. Lenny was indeed a very nice shark and a good friend and they all lived happily ever after. The End.
