Interview in City Hall

Today, December 18, 2018, I interviewed the mayor and judge at city hall. My first interview was with the mayor, Maria. "Who do you work with in Enterprise America?" I asked. "Well," she said "I like to think I work with everyone here, but I ACTUALLY work with the amazing lawyer Puja, police officer Troy, Kameron, and the awesome Au'livia." Then, I asked her "When I is it important to start thinking about the future?" She then answered by saying "Every day, because every day is a new chance to think of what's coming. Every day is a new beginning." "What is special about your business or business team?" I questioned. "Well, my team is special because, like, even though we all work in different departments, we all still make it work." Then, I asked the most idiotic question. "Where do you work?" I realized it was stupid the second it came out of my mouth. "City hall" Then we laughed a little. I then asked my final question. "How was your experience here at EA?" She replied with "It has been an awesome adventure, experiencing everything from an adults shoes, everything has been so cool and fun." That was all I needed, so I said goodbye, and see you later. Then I left. -Sami TJ
